

AHPI INSTITUTE OF HEALTHCARE QUALITY &
GLOBAL HEALTH CARE COLLEGE, SWEDEN

CERTIFIED HEALTHCARE QUALITY PRACTITIONER (CHQP)

(Most acclaimed Quality Program,
rechristened in E-learning mode)

Endorsed By:

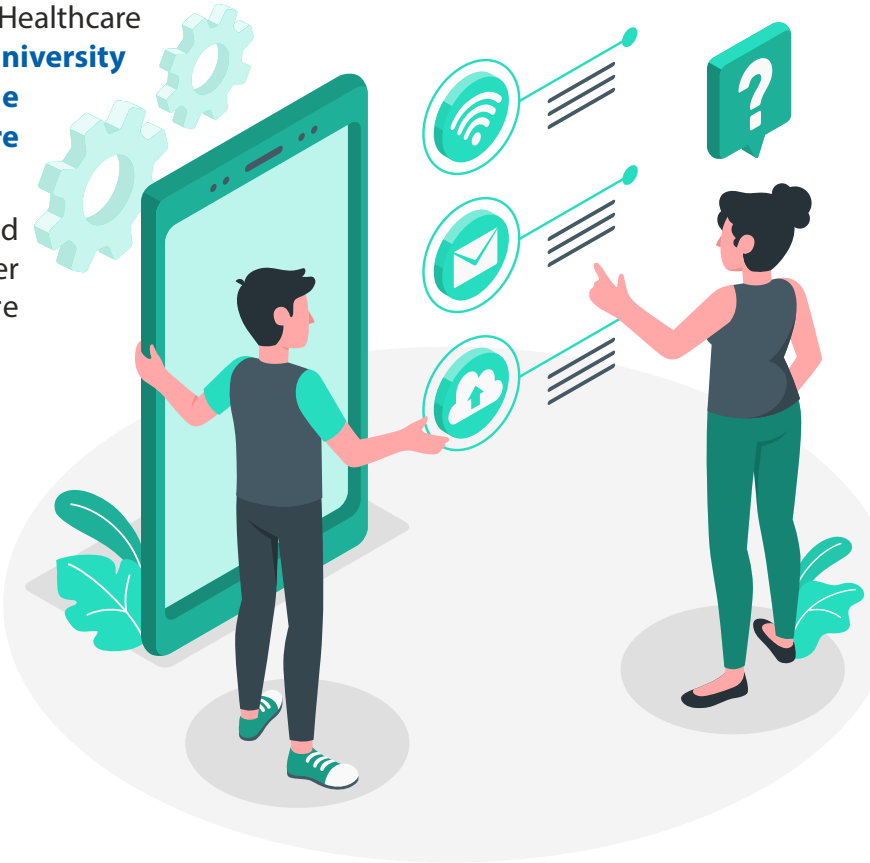

Knowledge Partner:

CHQP is a unique and high value program, perhaps only of its kind, from AHPI Institute of Healthcare Quality, under the endorsement of **'WB University of Health Sciences'** and with the collaboration of **'Global Health Care College, SWEDEN'**

This is a multi-disciplinary program, tutored by senior professional faculty. It is a career development program for Healthcare Quality Managers, Medical Superintendents, Medical diagnostics, Pharmacists, Nursing staff and all those who want to make advancement in the field of Healthcare Quality. The program is special as it presents integrated view of Healthcare Quality including Clinical and Managerial aspects in delivering value-based care.

The Body of Knowledge used for this course having 20-modules, will lead towards the preparation of Competent Professional in Healthcare Quality, through e-learning platform. The learning is enhanced through tutorials and project work. The participants are certified based on their qualifying performance in examinations and demonstrating competency through the tutorials and project work.

PEDAGOGY

The objective of the program is to equip healthcare professionals with knowledge, skill and attributes to practice quality and patient safety at work place. Although the body of knowledge has very exhaustive coverage, yet the unique design of program around lectures, tutorials and project make it enjoyable journey of learning. Keeping in view the fast pace work profile of healthcare professionals, program has built-in flexibility, by which participants can complete the program within their schedule of work. The overall agenda and elements of program are listed below;
