GLOBALLY ACCREDITED CERTIFICATION FOR
SAFE AND HEALTHY WORKPLACE AGAINST PANDEMICS

(GREEN AND CLEAN HOSPITALITY MANAGEMENT SYSTEM-GCHMS)

Joint INITIATIVE OF AHPI & UAF

For helping business combat epidemic through implementing GCHMS-PII which is a comprehensive safety management system standard that focuses on health, hygiene, sanitation and infection control related to all kinds of pandemics

Who can go for GCHMS-PII certification?

› All establishments; service as well as manufacturing

› All MSMEs – manufacturing and service

› Extremely beneficial for hospitality business like hotels, resorts, gyms& spa, malls, restaurants. markets, BPOs, tourist spots, airlines etc. which depends on high human touch operations

› Any sector specific requirements shall be add-ons to the standard and verified accordingly

The Purposes

› To provide information on infection prevention and control and other requirements to fight COVID - 19 and other contagious diseases

› To implement your obligations towards regulatory requirements

› To certify that you have the necessary processes to fight against contagious diseases

› To continuously improve the performance of your system

Your certification to GCHMS-PII will demonstrate that your system has been verified by an accredited independent third party certification body as per international standards like ISO 45001:2015 and ISO/IEC 17021-1: 2015

The basis of GCHMS- PII

› Best practices of ISO 45001:2018

› Best practices of infection prevention and control

› Best practices of various national and international hospitality business checklist

› Guidelines and directives issued by government
