MESSAGE

I am pleased to learn about the 9<sup>th</sup> annual global conclave organised by The Association of Healthcare Providers India (AHPI). The theme, “Applying industry best practices in healthcare sector: Focusing on value-based patient health outcomes” is in tune with the present times.

The adoption of modern, futuristic technology has ushered in transformative changes in the healthcare sector. Digital interventions such as telemedicine and tele-consultations have enhanced the ease of access to health services.

We remain firm in our commitment to realise the vision of comprehensive healthcare and making best healthcare facilities affordable and accessible for all. Through various initiatives during the last eight years, our emphasis has been on building a thriving healthcare ecosystem.

The world today looks towards India to provide holistic healthcare solutions. During the once-in-a-century pandemic, the world has witnessed the strength and potential of Indian science, medical sector, as also enterprise and collective spirit of 130 crore Indians.

I am sure that the deliberations at the annual global conclave will help in sharing latest technology and expertise for larger good. Greetings and heartiest congratulations to all the winners of 8<sup>th</sup> AHPI awards for excellence in healthcare.

May the souvenir being published on the occasion be widely read and liked.

Best wishes for all success of the 9<sup>th</sup> annual global conclave.

(Narendra Modi)
